Address: 9960 Bayview Ave, Richmond Hill, ON L4C2L2

SUMMARY

Ambitious and dedicated high school student excelling in math, computer science, and physics. Possesses strong programming skills and a keen problem-solving ability. Able to adapt and learn quickly, with a drive to conquer goals and new challenges. Proficient with Linux and Git, with successful experience in various programming projects. Looking for a tutoring position to apply my abilities in practical challenges and everyday issues, helping others achieve academic success.

SKILLS

Team work and collaboration	Quick learning and adaptability	Strong interpersonal skills
Computer science expertise	Critical thinking skills	Proactive and self-motivated
Advanced math and physics skills	Excellent communication skills	Exceptional organisational skills

EXPERIENCES

Physics Peer Tutor

Oct 2023 - Jan 2024

Bayview Secondary School

Assisted in the physics classroom by enhancing student understanding of course material and problem-solving techniques. Facilitated a friendly learning environment through small-group interactions and individualized support. Provided instructional assistance to students unable to attend classes and contributed to planning culturally diverse learning sessions. Encouraged active participation and hands-on activities to explore concepts effectively and achieve personalized learning objectives.

EXTRACURRICULAR ACTIVITIES

Computer Club

Oct 2023 - Present

Junior Executive

Prepared lessons to present in the computer club with the goal of teaching new skills and allowing the students to explore new fields related to computer programming. Contributed to the group work by taking a part in the lesson preparation for each week and following up with the supervisor teacher for feedbacks.

Art Club

Oct 2023 - Present

Event Coordinator

Organized art club events to foster creativity and skill development among students. Collaborated on weekly activity planning, ensuring alignment with educational objectives and artistic themes. Communicated regularly with the supervising teacher to refine event plans and enhance participant experience.
